Jane.bolivar@cdha.nshealth.ca

Educationally cosponsored by
DALHOUSSIE Faculty of Medicine Continuing Medical Education
UNIVERSITY Inspiring Minds

Presented by the
Capital Health QEI Health Sciences Centre Pain Management Unit
OVERVIEW

This program is designed to provide an update in the field of pain management for family physicians, medical specialists and other health professionals who have an interest in assisting patients suffering with chronic pain.

The objective is to cover an intensive curriculum within a short period of time. The program will give the clinician an appreciation of the importance of taking an interdisciplinary approach as well as provide updates on key areas of pain management such as management of pain in the pediatric patient, neuropathic pain, community vocational counseling, and management of opioid medications for chronic pain.

The program includes faculty from multiple disciplines and is tailored to facilitate a team approach including nursing, medicine, physiotherapy, psychology, dentistry, pharmacy and occupational therapy.

BOOKLET DECLINE
I do not require a handout book for this program. In keeping to balance concerns for the environment and the course website for a period of three months following the conference, we will no longer print hard copies. Subject to speaker approval, most presentations will be available on the course website for a period of three months following the conference. We will make every effort to make slides available to participants. Most presentations will be available on the course website for a period of three months following the conference. We will make every effort to make slides available to participants.

CONCURRENT SESSION SELECTION (Please rank in order of preference)
1. _____A Patient has a Pain Stimulator…
2. _____Neuropathic Pain in Primary Care
3. _____Therapy for Chronic Pain
4. _____Management of Opioids…
5. _____A Patient has a Pain Stimulator…
6. _____ED Pain Management
7. _____Therapy for Chronic Pain
8. _____Neuropathic Pain in Primary Care
9. _____Management of Opioids…
10. _____ED Pain Management
