

Promoting the appropriate use,
and reducing the abuse and misuse of monitored drugs in Nova Scotia.

Nova Scotia Prescription Monitoring Program Stakeholder Survey

The Nova Scotia Prescription Monitoring Program (NSPMP) is interested in receiving your feedback. **Beginning November 4**, the NSPMP's 2013 Stakeholder Survey will be available online for physicians, dentists, and pharmacists to complete.

The intent of the survey is to gain valuable feedback regarding stakeholder use and value of program services, as well as the Program's customer service. In addition, the survey will allow for feedback regarding potential program enhancements or adjustments that could be of benefit to those providing patient care. The survey results are anonymous and will assist the Program to continue striving toward meeting its mandate of promoting appropriate use and reducing misuse/abuse of monitored drugs.

Please take an opportunity to complete the survey, which can be completed in no more than 5-10 minutes, and help contribute toward the success of the Nova Scotia Prescription Monitoring Program. The survey can be accessed by entering <http://fluidsurveys.com/s/nspmp/> into your internet web browser or from a link on the homepage of the NSPMP website at www.nspmp.ca. **The survey will close on December 15, 2013.**

Should you have any questions or require any assistance completing the survey, please contact the NSPMP at 902-496-7123 or toll-free at 1-877-476-7767.

Sincerely,

Kevin Lynch
Manager, Nova Scotia Prescription Monitoring Program
